

Gateway MD2614u Key Replacement

This guide shows you how to replace a damaged key.

Written By: Toni Pipes

INTRODUCTION

You will open the laptop and use your finger to pop off a damaged key.

Step 1 — Key

- Place the laptop so the top cover is facing up.

Step 2

- Open the laptop with the display facing you.

Step 3

- Using your fingernail, apply pressure upward from underneath the key to pry it loose from its bearings. (use the accompanying image for a reference)

To reassemble your device, follow these instructions in reverse order.
